WICO COMMAND CONTROL

The excitement and challenge of the Arcade, now yours at home.

The ultimate control. Gives you 360 degree movement... even controls the speed of on-screen objects, just like you get in the arcade. WICO's Command Control trackball makes the game more fun — makes you a better player. It's the key to accuracy and incredible control. It's the first arcade trackball ever designed for home use.

WICO brings 42 years of experience to the development of Command Control. WICO is the world's largest

designer and manufacturer of control devices for the commercial arcade games. If you've ever played an arcade video game, chances are you've used a WICO joystick or trackball. You've experienced the superior control. The pinpoint firing accuracy. The exceptional durability.

WICO's Command Control is designed to give you all of this. It delivers everything an arcade trackball does... and does it in the comfort of your home.

EXCLUSIVE WICO FEATURES

- Designed specifically for Atari, Sears, and Commodore systems.
- Phenolic ball offers the magic of 360 degree movement to an infinite number of positions, and controls the speed of on-screen objects, as well.
- Two optical encoders provide split-second response.
- Quick-action fire button for smooth, two-handed arcade response and feel.
- Extra-long 5 foot computer connection cord.
- Heavy-duty plastic case for long, hard use.
- Arcade-type design features injection-molded modular construction — identical to the best commercial arcade models.
- Full one-year limited warranty.
